

The e-Stewards Difference

Get the facts and make an informed decision on which certification is right for your organization!

R2V3

Ethical

Registered and Supported by the U.S. EPA		
Implements new Basel Convention Amendments (plastics and e-waste)		
Requires exports for re-use to be fully functional		
Has the support of over 70 environmental organizations worldwide		
Prevents export of harm of Basel Convention controlled wastes to developing countries		

Accountable

Audited by third-party accredited certification bodies		
Requires certification of ALL of a company's processing facilities within a country		
Verifies processor performance with random inspections and GPS Tracking		
Requires NAID AAA Certification to provide highest levels of security for private data		
Requires all data in devices under an organization's control be sanitized		

Responsive

Standard created using a multi-stakeholder process, with public input		
Allows alternative, innovative processes and procedures vetted on a case-by-case basis		
Aims to minimize bureaucracy and prescriptiveness in favor of rigor		

Community

Holds Face-to-Face meetings for all e-Stewards to garner input to the program		
Has over 30 licensed enterprise companies and cities committed to using e-Stewards		
Films, photos, individualized podcasts and other marketing tools available		
Employment enhancement program for those with disabilities (e.g. autism spectrum)
